

## DORO 7080

### WHY DORO

While other brands like to talk about stunning displays, amazing cameras or the latest technology with the cool new name, we like to talk more about simplicity. That's what our fans – people who feel the effects of ageing but remain young at heart – really want. It's why "EASY" is the key building block in every Doro's DNA, shaping every detail into a phone you'll love – including the ability to take great photos and to enjoy them on a big, beautiful screen. They're also expertly tuned to suit the more mature ear.

### HEAR IT. SEE IT. LOVE IT.

No matter how young we stay at heart, age has a way of turning once easy tasks into frustrating chores. At Doro, our phones are born from the idea that using them should always be a breeze even when hearing, seeing or dexterity declines. That's why you will always find excellent standard features such as extra loud and clear sound, high contrast displays, easy to read buttons and a large, clear interface. And of course, the widely separated keys make typing easier. We focus on the chores, so you can focus on the fun stuff

### FLIP PHONE WITH EXTERNAL DISPLAY AND FACEBOOK

The stylishly designed Doro 7080 has an external display showing a caller's name and number right away. Just flip it open to answer a call or to begin enjoying photos, videos, Facebook, WhatsApp and more on the large screen. Widely separated, high contrast keys make calling and texting easier, and HD Voice enables clearer conversation at both ends of the line. And as an added plus, Doro 7080 supports direct help via the assistance button and our Response by Doro™.

### RESPONSE BY DORO®

Our unique services enable trusted relatives or friends to quickly and easily manage important settings on your phone, all via an app installed on theirs. These services also keep your support network close. Just one press of your phone's assistance button sends an alarm with your location to a list of people you rely on, sounding a loud, distinct signal on their phones even if placed in 'Do not disturb' mode. More peace of mind for you, and for them.
