

Product Liability Disclaimer

- Just like with any other shoelace, it is the responsibility of the end-user to make sure the product is correctly installed. It is also the end-user's responsibility to make sure that the shoelace is present in such a way that will allow for appropriate tension after final installment, keep your shoes secure and provide proper support to endure normal stress levels or activities of high intensity.
- Product is to be used exclusively with lace-up shoes as a shoelace alternative.
- Product parts are coated with nickel (not recommended to be handled by those with allergies to it).
- Product is not recommended for use with shoes intended for contact sports.
- Product is not recommended for children under 3 years of age.
- Quickshoelace can be installed in shoelace holes measuring between 3.2 - 7.5 mm in diameter.
 - Caution is advised while running lace through holes due to shape of the metal parts. Please follow instructions carefully.
